- **English**

  Full Professional Proficiency

- **Hindi**

  Full Professional Proficiency

- **Japanese**

  Elementary Proficiency

PROJECTS

- **Image Search Engine(11/2023-12/2023)**

  I've created a simple image search website from scratch by using HTML, CSS, and JavaScript to build a user-friendly interface. The website allows users to search for images based on keywords, and it displays a set of initial images. Users can click on a "Show More" button to load additional images related to their search term.

- **Library Management System(01/2023-02/2023)**

  An integrated library management system (LMS) is ERP software that helps in simplifying the daily operations of the library. The purpose of a library management system is to manage & track the daily work of the library such as issuing books, return books, Maintains Stats,etc.

- **Automated teller machine(02/2023-03/2023)**

  In the Automated teller machine(ATM), the user has to select an option from the options displayed on the screen. The options are related to withdraw the money, deposit the money, check the balance, and exit.

- **Random Quote Generator**

  The Random Quote Generator is an online tool that provides users with a random selection of inspiring and motivational quotes. It offers a wide variety of quotes on different topics, sourced from famous personalities, authors, philosophers, and more.
